Open Studio Guidelines for the Woodworking Studio:

Instructors in woodworking will outline safety guidelines for students who are staying to work during open studio. Please read the following guidelines as you plan to make use of your open studio time:

- Between 4:30pm and 9pm students may work alone in the studio. We suggest *bringing a cell phone in case an emergency arises and you need to contact the on-site coordinator.*
- After 9pm, when the coordinator makes final rounds, we require that two individuals are present in the studio in order to continue working with any power tools or equipment allowed by your instructor.
- There is to be no consumption of drugs or alcohol in the studios, nor shall students work with studio equipment when under the influence of drugs or alcohol.
- The last person in any studio is responsible for turning off indoor lights and closing the doors for the night.
