Workshop Information and Student Supply List:

Date: September 14-15, 2019

Women Who Weld II with **Pat Bennett**

Studio Location: Welding Barn

Class Description:

If you've taken Women Who Weld or have other welding experience, come on back to improve your skills and tackle more advanced projects. Pat will work closely with each student to solve challenges and build out ideas that have not yet found their form. The spark of your imagination will transform into real-life sparks as you create with other women welders in a supportive and friendly environment.

Supply Information:

Your supply fee covers the use of basic supplies - welding wire, sheet and basic rod, angle, and tube, and other consumables associated with the welding studio. We strongly encourage participants to bring found objects to incorporate into their sculptures. For those travelers who cannot transport their own found objects, Snow Farm has a pile to rummage through. In addition, your instructor requests that you bring the following materials:

- Denim or cotton apron (Snow Farm cotton aprons are for sale) (optional)
- A sketchbook or notebook and drawing or writing utensil

Important Safety Guidelines for the Welding Barn:

Proper attire:

- Wear a long sleeved shirt. Wear only natural fibers – cotton is best.
- NO Polyester fabrics: they will melt and combust against your skin around a flame.
- No open-toe shoes. Leather shoes or work boots are best.

Please also bring the following safety gear:

- Pair of clear safety glasses and ear protection (Snow Farm has basic safety gear but you may be more comfortable if you bring your own)
- Water bottle to stay hydrated
- Pair of comfortable work gloves
- If you wear contact lenses, it's a good idea to have a supply of saline eye drops handy--contacts can dry quickly with the exposure to heat.
- Hair tie to tie back long hair

Open Studio Guidelines for the Welding Studio:

Instructors in welding will outline safety guidelines for students who are staying to work during open studio.

The **use of power tools, equipment, and welders will be limited** and is at the discretion of your instructor.

Please read the following guidelines as you plan to make use of your open studio time:

- Between 4:30pm and 9pm students may work alone in the studio. We suggest *bringing a cell phone in case an emergency arises and you need to contact the on-site coordinator.*
- After 9pm, when the coordinator makes final rounds, we require that two individuals are present in the studio in order to continue working with any power tools or equipment allowed by your instructor.
- There is to be no consumption of drugs or alcohol in the studios, nor shall students work in the studio when under the influence of drugs or alcohol.
- The last person in any studio at night is responsible for studio shutdown procedures.

Instructor Info: Email: patb2766@yahoo.com

Bio: Pat Bennett graduated from Mass College of Art with a BFA and received her MFA in sculpture from Alfred University. Pat has taught welding and lampworking for both our High School and Adult Programs. She currently teaches fabrication at Hampshire College.
